Indication
BOTOX® is a prescription medicine that is injected to prevent headaches in adults with chronic migraine who have 15 or more days each month with headache lasting 4 or more hours each day in people 18 years or older.

It is not known whether BOTOX® is safe or effective to prevent headaches in patients with migraine who have 14 or fewer headache days each month (episodic migraine).

IMPORTANT SAFETY INFORMATION
BOTOX® may cause serious side effects that can be life threatening. Get medical help right away if you have any of these problems any time (hours to weeks) after injection of BOTOX®:

- Problems swallowing, speaking, or breathing, due to weakening of associated muscles, can be severe and result in loss of life. You are at highest risk if these problems are pre-existing before injection. Swallowing problems may last for several months.

- Spread of toxin effects. The effect of botulinum toxin may affect areas away from the injection site and cause serious symptoms including: loss of strength and all-over muscle weakness, double vision, blurred vision and drooping eyelids, hoarseness or change or loss of voice, trouble saying words clearly, loss of bladder control, trouble breathing, trouble swallowing.

There has not been a confirmed serious case of spread of toxin effect away from the injection site when BOTOX® has been used at the recommended dose to treat chronic migraine.

BOTOX® may cause loss of strength or general muscle weakness, vision problems, or dizziness within hours to weeks of taking BOTOX®. If this happens, do not drive a car, operate machinery, or do other dangerous activities. Please see additional Important Safety Information throughout the brochure.
BOTOX® IS COVERED BY MOST INSURANCE PLANS

With the BOTOX® Savings Program, you may pay $0 for the out-of-pocket costs not covered by insurance (up to $400 per treatment for Chronic Migraine)*.

You may be eligible for the BOTOX® Savings Program if you:

- Are 18 years or older
- Have commercial insurance (can’t be enrolled in or eligible for Medicare, Medicaid, or any state/federal insurance program)
- Received BOTOX® treatment for an approved use (like Chronic Migraine)

How to sign up and submit a claim:

1. Check eligibility at BOTOXSavingsProgram.com.
2. If you’re eligible, fill out some paperwork online.
3. Receive BOTOX® treatment for an approved therapeutic use (like Chronic Migraine).
4. Submit a claim online through the Program website.
5. If your claim is approved, receive a check in the mail for the amount of your out-of-pocket costs not covered by insurance (up to $400 per treatment for Chronic Migraine).

Checking eligibility, signing up, and saving is easy. Visit BOTOXSavingsProgram.com to get started.

How the BOTOX® Savings Program Works for Those Who are Eligible

How the BOTOX® Savings Program works for those who are eligible.

Initial Payment
You pay a certain amount out of pocket at the time of treatment.

Receive Reimbursement
After your claim is approved, you’ll receive a check for out-of-pocket costs not covered by insurance (up to $400 per treatment).

Total Payment
Depending on your insurance coverage, you may end up paying $0 for treatment.

*Based on insurance coverage. Chronic Migraine patients can receive up to $400 per treatment of BOTOX® for out-of-pocket costs not covered by insurance (up to $400 per treatment for Chronic Migraine).

**Must be commercially insured and meet eligibility criteria to qualify. Please see terms and conditions.

Program Terms, Conditions, and Eligibility Criteria. This offer is good for use only with a valid prescription for BOTOX® (onabotulinumtoxinA). Based on insurance coverage. Chronic Migraine patients can receive up to $400 per treatment of BOTOX® for out-of-pocket costs not covered by insurance (up to $400 per treatment for Chronic Migraine).

The dose of BOTOX® is not the same as, or comparable to, another botulinum toxin product. Serious and/or immediate allergic reactions have been reported, including itching, rash, red, itchy welts, swelling, asthma symptoms, or dizziness or feeling faint. Get medical help right away if you experience symptoms; further treatment of BOTOX® should be discontinued.

Important Safety Information (continued)

Provider (SPP) receipt. If the BOTOX® prescription was filled by a Specialty Pharmacy Provider (SPP), details must be provided. All claims must be submitted within 90 days of the date of EOB receipt. You may be required to provide a copy of your EOB or SPP receipt for your claim to be approved. Allergan reserves the right to rescind, revoke, or amend this offer without notice. Offer good only in the USA, including Puerto Rico, at participating retail locations. Void where prohibited by law, taxed, or restricted. This offer is not health insurance. By participating in the BOTOX® Savings Program, you acknowledge that you are an eligible patient and that you understand and agree to comply with the terms and conditions of this offer. For questions about this program, please call 1-800-44-BOTOX, Option 4.

IMPORTANT SAFETY INFORMATION (continued)
Tell your doctor about all the medicines you take, including prescription and nonprescription medicines, vitamins, and herbal products. Using BOTOX® with certain medicines may cause serious side effects. Do not start any new medicines until you have told your doctor that you received BOTOX® in the past.

Tell your doctor if you received any other botulinum toxin product in the last 4 months; have received injections of botulinum toxin such as Myobloc®, Dysport®, or Xeomin® in the past (tell your doctor exactly which product you received); have recently received an antibiotic injection; take muscle relaxants; take allergy or cold medicines; take sleep medicine; take aspirin-like products or blood thinners.

Other side effects of BOTOX® include: dry mouth, discomfort or pain at injection site, tiredness, headache, neck pain, and eye problems: double vision, blurred vision, decreased eyesight, drooping eyelids, swelling of eyelids, and dry eyes.

For more information refer to the Medication Guide or talk with your doctor.
You are encouraged to report negative side effects of prescription drugs to the FDA. Visit www.fda.gov/medwatch or call 1-800-FDA-1088.

Please see accompanying Summary of Information about BOTOX®.

Summary of Information about BOTOX® (onabotulinumtoxinA)

What is the most important information I should know about BOTOX®?

- Spread of toxin effects. The effect of botulinum toxin may affect areas away from the injection site and cause serious symptoms including: loss of strength and all-over muscle weakness, double vision, blurred vision and drooping eyelids, hoarseness or change or loss of voice, trouble saying words clearly, loss of bladder control, trouble breathing, trouble swallowing.

There has not been a confirmed serious case of spread of toxin effect away from the injection site when BOTOX® has been used at the recommended dose to treat Chronic Migraine.

- Problems swallowing, speaking, or breathing, due to weakening of associated muscles, can be severe and result in loss of life. You are at the highest risk if these problems are pre-existing before injection. Swallowing problems may last for several months.

What Should I Tell My Doctor About Medicines and Vitamins I Take?

- Do not use BOTOX® if you are allergic to any of the ingredients in BOTOX® such as botulinum toxin type A and human serum albumin; had an allergic reaction to another botulinum toxin product such as Myobloc® (rimabotulinumtoxinB), Dysport® (abobotulinumtoxinA), or Xeomin® (incobotulinumtoxinA); or have a skin infection at the planned injection site.

What is BOTOX®?

BOTOX® is prescription medicine a medical professional injects into muscles to prevent headaches in adults with Chronic Migraine who have 15 or more days each month with headache lasting 4 or more hours each day in people 18 years and older.

It is not known whether BOTOX® is safe or effective to prevent headaches in people with migraine who have 14 or fewer headache days each month (episodic migraine).

- BOTOX® dosing units are not the same as, or comparable to, any other botulinum toxin product.

Tell your doctor if you have or have had breathing problems such as asthma or emphysema; swallowing problems; bleeding issues; plan to or have had surgery; have forehead muscle weakness such as trouble raising your eyebrows; drooping eyelids; or any changes to your face.

Tell your doctor if you are pregnant, plan to become pregnant, are breastfeeding or plan to breast feed. It is not known if BOTOX® (onabotulinumtoxinA) can harm your unborn baby or if BOTOX® passes into breast milk.

What Are Common Side Effects?

The most common side effects include neck pain; headache; migraine; slight or partial facial paralysis; eyelid drooping; bronchitis; musculoskeletal stiffness; muscular weakness; pain in 1 or more muscles, ligaments, tendons, or bones; muscle spasms; injection site pain; and high blood pressure. Other side effects have been reported including allergic reactions e.g. itching, rash, red itchy welts, wheezing, asthma symptoms, or dizziness or feeling faint.

These are not all of the possible side effects. Call your doctor for medical advice if you experience any side effects after treatment with BOTOX®.

Tell your doctor if you are: allergic to any of the ingredients in BOTOX® such as botulinum toxin type A and human serum albumin; had an allergic reaction to another botulinum toxin product such as Myobloc®, Dysport®, or Xeomin®. Be sure your doctor knows which product you received.

Tell your doctor about all prescription and over-the-counter medicines and supplements you take including: vitamins and herbal products; recent antibiotic injections; anticholinergics; muscle relaxants; allergy or cold medicine; sleep medicine; aspirin-like products; and blood thinners. Ask your doctor if you are not sure whether your medicine is listed above.
