Cost-savings and more for people fighting Chronic Migraine

**Indication**
BOTOX® is a prescription medicine that is injected to prevent headaches in adults with chronic migraine who have 15 or more days each month with headache lasting 4 or more hours each day in people 18 years or older.

It is not known whether BOTOX® is safe or effective to prevent headaches in patients with migraine who have 14 or fewer headache days each month (episodic migraine).

**IMPORTANT SAFETY INFORMATION**
BOTOX® may cause serious side effects that can be life threatening. Get medical help right away if you have any of these problems any time (hours to weeks) after injection of BOTOX®:

- **Problems swallowing, speaking, or breathing**, due to weakening of associated muscles, can be severe and result in loss of life. You are at highest risk if these problems are pre-existing before injection. Swallowing problems may last for several months.

- **Spread of toxin effects**. The effect of botulinum toxin may affect areas away from the injection site and cause serious symptoms including: loss of strength and all-over muscle weakness, double vision, blurred vision and drooping eyelids, hoarseness or change or loss of voice, trouble saying words clearly, loss of bladder control, trouble breathing, trouble swallowing.

There has not been a confirmed serious case of spread of toxin effect away from the injection site when BOTOX® has been used at the recommended dose to treat chronic migraine.

BOTOX® may cause loss of strength or general muscle weakness, vision problems, or dizziness within hours to weeks of taking BOTOX®. **If this happens, do not drive a car, operate machinery, or do other dangerous activities.** Please see additional Important Safety Information throughout the brochure.
YOU MAY PAY AS LITTLE AS $0 FOR BOTOX® TREATMENTS

Did you know most insurance plans cover the majority of BOTOX® costs?*

• Some patients have remaining out-of-pocket costs
• If you’re eligible, the BOTOX® Savings Program may reimburse you to help with these out-of-pocket costs‡,§

You may be eligible for the BOTOX® Savings Program if you:

✓ Are 18 years or older
✓ Have commercial insurance (can’t be enrolled in or eligible for Medicare, Medicaid, or any state/federal insurance program)
✓ Received BOTOX® treatment for an approved use (like Chronic Migraine)

*Coverage and out-of-pocket costs vary
‡Must be commercially insured and meet eligibility criteria to qualify. Offer not valid for patients enrolled in Medicare, Medicaid, or other federal state healthcare programs. Please see terms and conditions.
§Checks arrive in as little as 2-3 weeks after claim approval.
†Covers out-of-pocket costs for BOTOX® for up to $700 per treatment, up to $3500 in a 12-month period.
*Coverage and out-of-pocket costs vary.

How to sign up and submit a claim

1. Check eligibility at BOTOXSavingsProgram.com.
2. If you’re eligible, fill out forms online.
3. Receive BOTOX® treatment for an approved therapeutic use (like Chronic Migraine).
4. Submit a claim online through the program website.

How the BOTOX® Savings Program Works for Those Who Are Eligible

INITIAL PAYMENT
You pay a certain amount out of pocket at the time of treatment, then file a claim for reimbursement.

RECEIVE REIMBURSEMENT
After your claim is approved, you can choose to have your reimbursement check sent to you or the doctor that provided treatment.

TOTAL PAYMENT
Depending on your insurance coverage, you may end up paying $0 for treatment.

Checking eligibility, signing up, and saving is easy. Visit BOTOXSavingsProgram.com to get started.

IMPORTANT SAFETY INFORMATION (continued)

Do not receive BOTOX® if you: are allergic to any of its ingredients (see Medication Guide for ingredients); had an allergic reaction to any other botulinum toxin product such as Myobloc® (incobotulinumtoxinA), Dysport® (abobotulinumtoxinA), or Xeomin® (ncobotulinumtoxinA); have a skin infection at the planned injection site.

The dose of BOTOX® is not the same as, or comparable to, another botulinum toxin product. Serious and/or immediate allergic reactions have been reported, including itching, rash, red tchy welts, wheezing, asthma symptoms, or dizziness or feeling faint. Get medical help right away if you experience symptoms; further treatment of BOTOX® should be discontinued.

For questions about this program, please call 1-800-44-BOTOX.

IMPORTANT SAFETY INFORMATION (continued)

Tell your doctor about all the medicines you take, including prescription and over-the-counter medicines, vitamins, and herbal supplements. Using BOTOX® with certain medicines may cause serious side effects. Do not start any new medicines until you have told your doctor that you received BOTOX® in the past.

Tell your doctor if you received any other botulinum toxin product in the last 4 months; have received injections of botulinum toxin such as Myobloc®, Dysport®, or Xeomin® in the past (tell your doctor exactly which product you received); have recently received an antibiotic injection; take muscle relaxants; take allergy or cold medicines; take sleep medicine; take aspirin-like products or blood thinners.

Other side effects of BOTOX® include: dry mouth, discomfort or pain at injection site, tiredness, headache, neck pain, eye problems: double vision, blurred vision, decreased eyesight, drooping eyelids, swelling of eyelids, dry eyes; and drooping eyebrows.

For more information refer to the Medication Guide or talk with your doctor. You are encouraged to report negative side effects of prescription drugs to the FDA. Visit www.fda.gov/medwatch or call 1-800-FDA-1088.
